BEYONDTECH CASE COMPETITION 2026 | GO-TO-MARKET STRATEGY

Attract → Convert → Replicate: Prove It at DTU, Then Take It Pan-India

A measured DTU pilot first. Four Tier-1 campuses tested one at a time, only after each gate is passed.

Ankit Paul

₹96,800	₹1,00,000	~25	90 days
DTU pilot, 10 weeks	Four campus pilots	Base-case DTU enrolments (assumption)	Gate-based plan

About 1,000 of DTU's 14,561 students may want non-tech prep, so we size the pilot to that

All DTU students, all programmes
Not the market (CASE data)

Four-year UG students (71.6%)
Closest base to B.Tech students

Target pool: 3rd and 4th-year B.Tech (EST)
Our planning figure: ~2,100

Interested in non-tech roles (EST)
Not surveyed; planning figure ~1,000

Pilot registrations (TARGET)
40% of ~1,000 interested (36–44% of 900–1,100)

Enrolments, base case (ASM)
2.5% of ~1,000 interested (2.3–2.8% of 900–1,100)

Where interest sits (EST, slide rates)

Branches	Students	Interest	Interested
Tech	1,077	23–25%	248–269
Other	1,591	48–53%	764–843

3 in 4 interested students are in non-tech branches (764–843 of 1,011–1,112).

Data flags (not hidden)

- Branch counts total 2,668, above the 2,000–2,200 pool. They may be seats, intake or enrolled students.
- The rates give 1,011–1,112 interested, not 900–1,100. We plan on ~1,000.

WHAT WE LEARNED
Only ~1,000 students may want this. A bigger reach number would not match the market.

WHAT WE PROPOSE
Size the pilot to the interested pool: target ~400 registrations through societies, batch groups and ambassadors.

RESULT TO EXPECT
Base case ~25 enrolments (2.5% of interested). An assumption, not a promise.

Source: team market-data slides (supplied; not externally verified). ~2,100 and ~1,000 are round midpoints of the ranges. Details in Appendix B.

BeyondTech has strong DTU proof, but its growth is informal and tied to the founder

50+
DTU selections (CASE)

13–14 LPA
DTU average package (CASE)

47 LPA
Highest, at Eternal (CASE)

4
Campuses with any awareness (CASE)

What works today (CASE)

- Word of mouth and WhatsApp communities
- Founder-led mentoring and LinkedIn
- Strong brand recall at DTU

What is fragile (CASE)

- No repeatable way to attract students
- No ambassador system or paid test
- No tracking from event to enrolment

Needed from BeyondTech in week 0 (UNK today)

- Eligible DTU cohort and which batch we target
- DTU enrolments so far, referral vs other
- Unique students behind the selections
- Fee, discounts and delivery cost per student
- Any past event data and call-to-enrolment rate
- Penetration = enrolled students ÷ eligible cohort

WHAT WE LEARNED
Proof is strong, but growth cannot be forecast and DTU penetration is unmeasured.

WHAT WE PROPOSE
Run a measured DTU pilot first, tracking registrations, attendance, counselling and enrolments.

RESULT TO EXPECT
A repeatable engine, and a real baseline for penetration.

Brief shows 40 selections across 14 organisations and also 50+; unreconciled, so we use 50+ (Appendix A). Case claims are not audited.

Our plan has three steps: Attract students, Convert them, then Replicate at new campuses

1 ATTRACT
At DTU

WE DO
4 placement events (case, SQL, product, mock interviews) and 12 student ambassadors with referral codes.

WE TRACK
Registrations.

RESULT
~400 registrations in 10 weeks (TARGET).

2 CONVERT
At DTU

WE DO
Call every attendee within 48 hours for a 15-minute counselling call with a mini mock interview.

WE TRACK
Attendance, counselling calls, enrolments.

RESULT
~25 enrolments in the base case (ASM), at ₹3,872 total spend each.

3 REPLICATE
At 4 Tier-1 campuses

WE DO
Test IIT Delhi, IIIT Delhi, BITS Pilani, IIT Bombay one at a time, each after written campus access and the last gate.

WE TRACK
The same four numbers as DTU.

RESULT
A known cost per counselling call at each campus before more money is released.

WHAT WE LEARNED
DTU already has proof. Other campuses have never heard of BeyondTech.

WHAT WE PROPOSE
Prove the system at DTU, then copy it one campus at a time.

RESULT TO EXPECT
Spend grows only when each gate shows real students at a known cost.

Budget: ₹96,800 for DTU and a ₹1,00,000 ceiling for four campus pilots. Total up to ₹1,96,800, released in steps.

Attract: four placement events and 12 ambassadors should bring about 100 new registrations each

	Wk 1	Wk 2	Wk 3	Wk 4	Wk 5	Wk 6	Wk 7	Wk 8	Wk 9	Wk 10
Events	**Set up** **Ambassadors, tracking**		**Case Arena** Consulting		**SQL night** Analytics		**Product teardown** Product		**Mock placement drive** Interviews	
Ambassadors	**12 ambassadors share referral codes in societies, batch groups and WhatsApp**									
Paid tests							**Test 1 (₹10,000), gated**		**Test 2 (₹10,000), gated**	
Registrations			**100**		**200**		**300**		**400**	

Cumulative target; a two-week follow-up tail (weeks 11–12) closes calls and enrolments. Paid tests run only if the Case Arena gate is met.

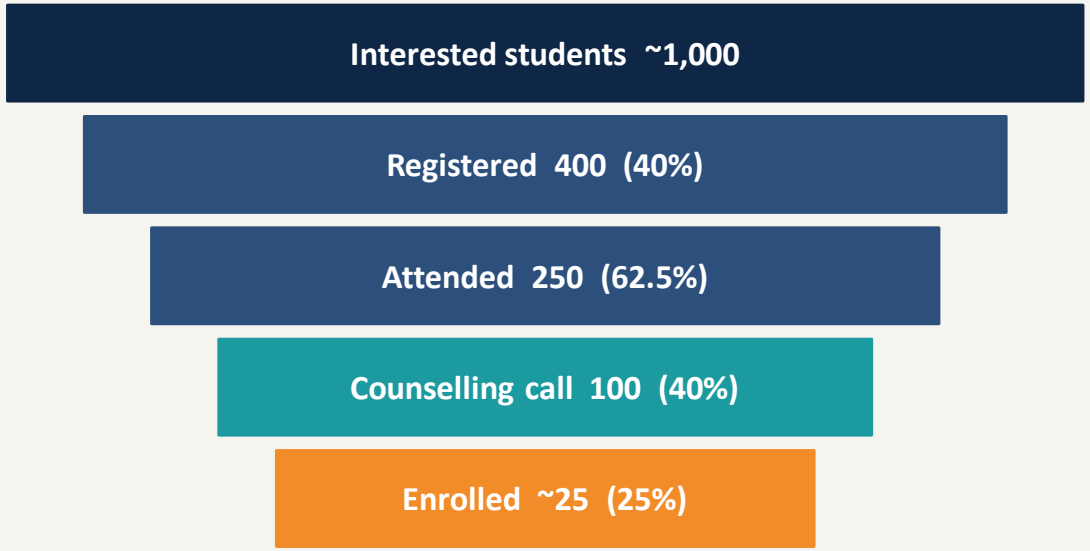

WHAT WE LEARNED
The brief points to urgency events (case workshops, mock drives) to bring in high-intent students.

WHAT WE PROPOSE
Run 4 events, one per programme phase, pushed by 12 ambassadors. Use paid ads only in two gated tests.

RESULT TO EXPECT
~100 new registrations per event, ~400 in 10 weeks (TARGET).

Phases are from the brief (CASE). Events, timing and targets are our design (PROP/TARGET). No DTU society tie-up is claimed until confirmed.

Convert: from ~1,000 interested students, the base case gives ~25 enrolments at ₹3,872 total spend each

	Low	Base	High
Registered (% of ~1,000)	300 (30%)	400 (40%)	500 (50%)
Attended	150 (50%)	250 (62.5%)	350 (70%)
Counselling call	45 (30%)	100 (40%)	140 (40%)
Enrolled	9 (20%)	25 (25%)	35 (25%)
Total spend each	**₹10,756**	**₹3,872**	**₹2,766**

Total ₹96,800 ÷ stage (base): ₹242 per registration · ₹387 per attendee · ₹968 per counselling call · ₹3,872 per enrolment

What we can and cannot claim

- All rates are assumptions (ASM). The pilot can test the first three; enrolment rate needs BeyondTech history.
- ROI is not claimed: we do not have fee or delivery cost.

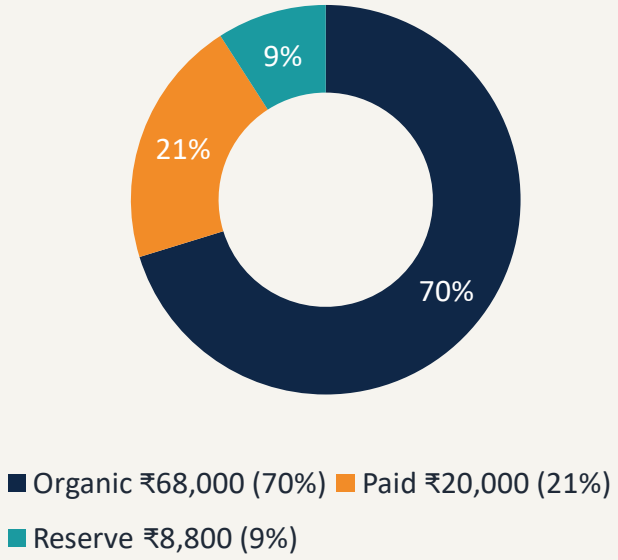

WHAT WE LEARNED
The old 5,000 reach was too big for ~1,000 interested students. We now start from the interested pool.

WHAT WE PROPOSE
Track four numbers per student ID: registered, attended, counselled, enrolled.

RESULT TO EXPECT
Base ~25 enrolments at ₹3,872 spend each; range ~9 to ~35 (ASM).

Spend each = full ₹96,800 ÷ enrolments, if all is spent; includes no founder or mentor time. Low/base/high rates are our assumptions (Appendix E).

Budget stays at ₹96,800: 70% organic, 21% paid in two gated tests, 9% reserve

What it buys	Detail	₹
Ambassador rewards	12 ambassadors, up to ₹1,500 each (PROP)	18,000
Events	4 events × ₹8,000	32,000
Creative	15 posts, posters, videos × ₹800	12,000
Tools and ops	Forms, WhatsApp, tracking sheet	6,000
Paid tests	2 × ₹10,000, only after a gate	20,000
Reserve	10% of ₹88,000, held back	8,800
Total		**96,800**

Authorise now: ₹76,800 (organic ₹68,000 + reserve ₹8,800 held)

WHAT WE LEARNED
Trust already exists at DTU, and paid ads have no baseline yet. Organic should lead.

WHAT WE PROPOSE
Put 70% into organic, 21% into two gated paid tests and hold 9% as reserve. Total unchanged.

RESULT TO EXPECT
Only ₹76,800 is authorised now; paid money waits for the Case Arena gate.

Shares: 68,000 ÷ 96,800 = 70.2%; 20,000 ÷ 96,800 = 20.7%; 8,800 ÷ 96,800 = 9.1%. Reward rate is a proposal (PROP).

Referrals turn one DTU success into the next registration, and every referral is tracked

1. Proof
Checked DTU results, shown with consent

→

2. Share
Ambassador shares proof with a unique code

→

3. Join
Friend registers and attends an event

→

4. Convert
Counselling call, then enrolment

↺ **An enrolled student's result becomes new proof for the next student**

Reward rule (PROP, untested)

- ₹250 per referred student who completes counselling
- Cap ₹1,500 per ambassador
- If all 100 base-case calls were referrals: 100 × ₹250 = ₹25,000, so the cap holds payout at the ₹18,000 pool

Guardrails (PROP)

- Count a selection only with student consent and a checked offer letter
- Remove duplicate phone numbers; two missed check-ins end an ambassador
- Name no firm without consent

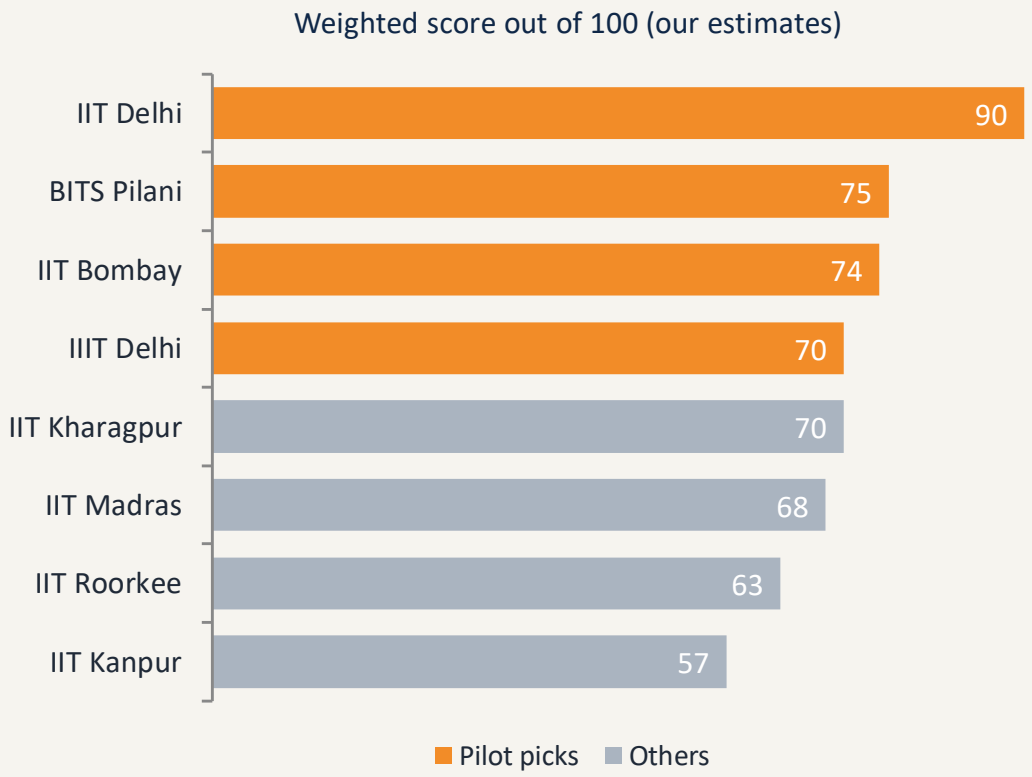

WHAT WE LEARNED
Word of mouth is the strongest channel today, but it cannot be tracked or forecast.

WHAT WE PROPOSE
Give each ambassador a code and pay only when a referred student completes counselling.

RESULT TO EXPECT
Referral share becomes measurable, and cost stays tied to real students.

All mechanics are proposals (PROP). The reward rate will be checked against ambassador response in weeks 1–4 before it is copied to new campuses.

We test four campuses: IIT Delhi, IIIT Delhi, BITS Pilani and IIT Bombay, with IIT Kharagpur in reserve

1 IIT Delhi
Closest to DTU. About 850 UG offers in 2024-25 (SEC), but no sector split.
Check: non-tech share of offers; society access

2 IIIT Delhi
Cheapest Delhi test of a technical niche.
Check: batch size, non-tech hiring

3 BITS Pilani
Consulting club and alumni network.
Check: which campus; written access

4 IIT Bombay
2024 B.Tech offers: finance 80, consulting 65, analytics 27 (SEC). Tests a digital-first route.
Check: cohort size; ad test reach

WHAT WE LEARNED
Public data covers only a few campuses. Every rating is still our estimate.

WHAT WE PROPOSE
Test the four picks one by one in this order. IIT Kharagpur (tied at 70, loses on cost) is the reserve.

RESULT TO EXPECT
IIT Delhi is first in all six stress tests; ranks 2–4 (75/74/70) are close, so each must prove itself.

Weights: role demand 25, audience 20, community 20, role fit 10, calendar 10, feasibility 15. Ratings are EST. NSUT, Thapar and BIT Mesra excluded as existing campuses. See Appendix C.

Replicate: one 14-day pilot at a time, each starting only after written access and the last gate

IIT Delhi
Days 31–44 · ₹30,000

ENTRY ROUTE (unconfirmed)
Consulting and analytics societies; case clinic on campus

GATE
100 reg. → ~15 calls

COST PER CALL AT GATE
₹2,000

IIIT Delhi
Days 45–58 · ₹20,000

ENTRY ROUTE (unconfirmed)
Career community ambassadors; analytics diagnostic

GATE
60 reg. → ~9 calls

COST PER CALL AT GATE
₹2,222

BITS Pilani
Days 59–72 · ₹25,000

ENTRY ROUTE (unconfirmed)
Consulting club and alumni intros; online SQL challenge

GATE
60 reg. → ~9 calls

COST PER CALL AT GATE
₹2,778

IIT Bombay
Days 73–86 · ₹25,000

ENTRY ROUTE (unconfirmed)
Targeted ads and student WhatsApp groups; online case challenge

GATE
100 reg. → ~15 calls

COST PER CALL AT GATE
₹1,667

Before any spend, all three must be true: (1) DTU passed Gate 1; (2) the campus gave written access; (3) the previous pilot met its gate.

Fallback: no access by day 5 of a slot? Skip it, use the reserve (IIT Kharagpur) or hold the funds.

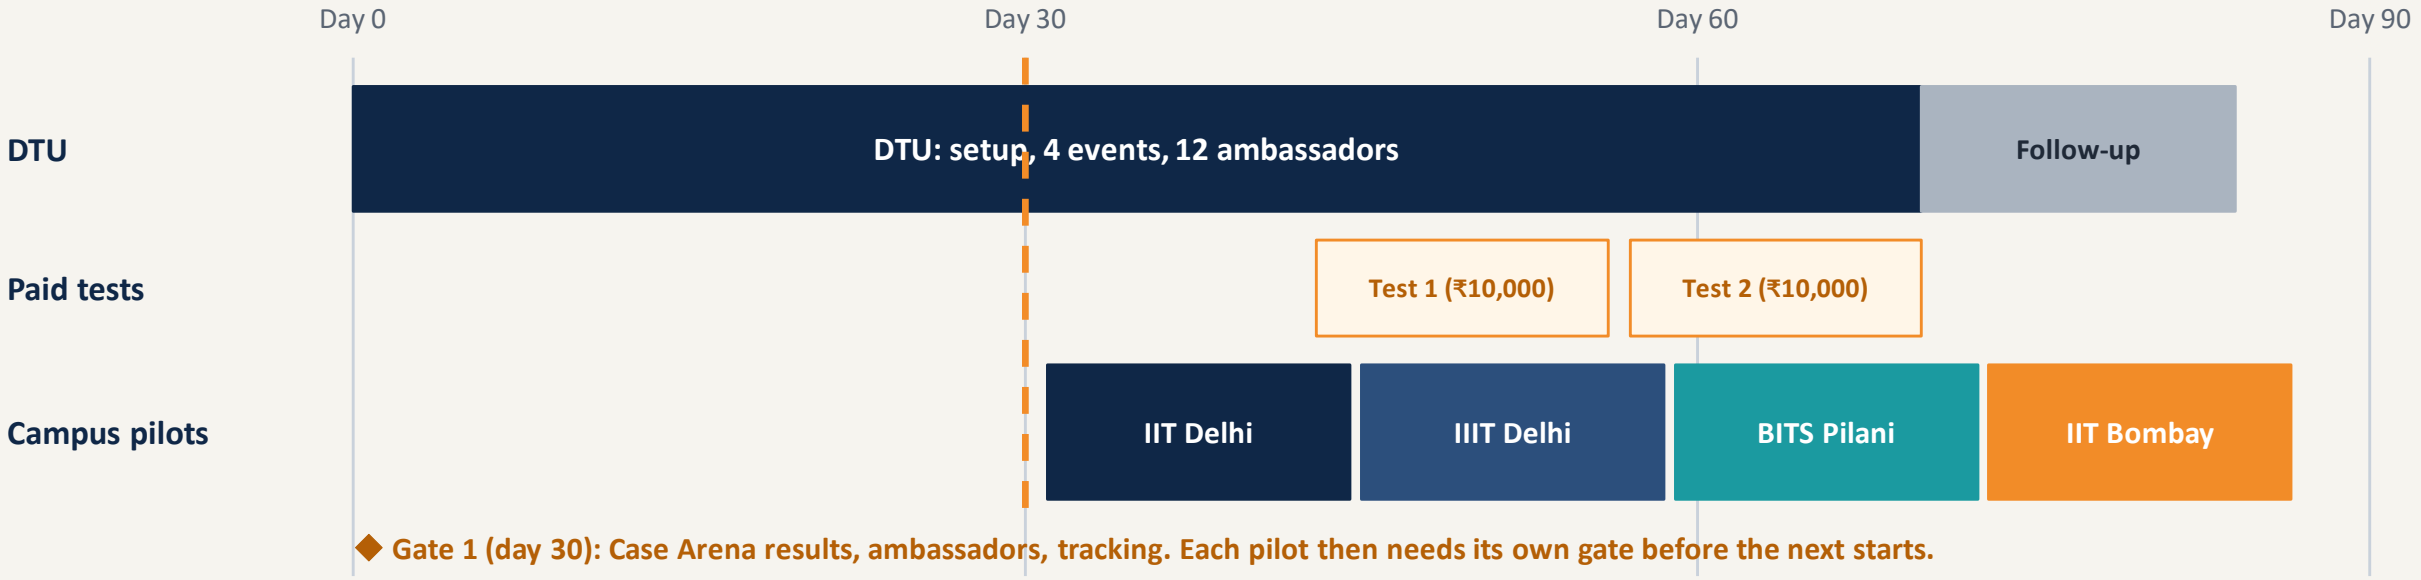

WHAT WE LEARNED
New campuses have no founder or word of mouth, so trust must come from free value first.

WHAT WE PROPOSE
Run one pilot at a time with its own small budget. Spend only after access and a passed gate.

RESULT TO EXPECT
A known cost per call at each campus: ₹1,667–₹2,778 at gate, 1.7–2.9× DTU base (₹968).

Gate plan: 50% attend, 30% counselled (15% of registrations). Budgets and gates are proposals (PROP). No partnership or access exists today (UNK). Math in Appendix F.

Over 90 days, DTU runs first and the four campus pilots follow one by one, each behind a gate

Money released: ₹76,800 now → +₹30,000 → +₹20,000 → +₹25,000 → +₹25,000 for pilots, plus ₹20,000 for paid tests when gated. Most we can spend: ₹1,96,800.

WHAT WE LEARNED
DTU gives real data by day 30. Each pilot gives a cost per call before the next one starts.

WHAT WE PROPOSE
Release money in steps tied to gates: ₹76,800 now, then up to ₹1,20,000.

RESULT TO EXPECT
At most ₹1,96,800 spent in 90 days, and an early stop if gates fail.

76,800 + 30,000 + 20,000 + 25,000 + 25,000 + 20,000 = 1,96,800. Weeks are approximate; pilots may shift if access takes longer.

Approve ₹76,800 now and unlock the other ₹1,20,000 only as gates are passed

₹76,800

Approve now (DTU organic + held reserve)

₹1,20,000

Gated: ₹20,000 paid tests + ₹1,00,000 for 4 pilots

₹1,96,800

Maximum spend over 90 days

Gate 1 at day 30: all must be true (PROP)

- At least 80 Case Arena registrations (base case 100)
- At least 45% of registrants attend
- At least 25% of attendees complete a counselling call (base case 40%)
- 12 ambassadors active; 95% of registrations tagged by source
- Stop rule: Case Arena and SQL night both miss, so stop paid spend and pilots

What we need and what we do not claim

- Needed in week 0: fee, delivery cost, DTU enrolment history, eligible cohort
- Needed before each pilot: written campus access
- Not claimed: ROI or guaranteed enrolments
- Break-even = spend ÷ (fee − delivery cost per student); needs BeyondTech data

WHAT WE LEARNED
The idea is promising but unproven. Rates are assumptions and ROI cannot be computed yet.

WHAT WE PROPOSE
Approve ₹76,800 now. Unlock the other ₹1,20,000 step by step, as gates are passed.

RESULT TO EXPECT
Either a proven, repeatable engine, or an early and cheap stop.

Gate thresholds are set below base-case values on purpose, so a pass means the plan is on track. All are proposals (PROP).

APPENDIX A

Evidence status and open inputs

Item	Status	Class
DTU selections	Brief says 40 across 14 organisations and also 50+. We use 50+; unique students unknown	CASE, unreconciled
13–14 LPA average; 47 LPA highest (Eternal)	Case-provided; not verified	CASE
DTU market numbers: 14,561; 2,000–2,200; 900–1,100; interest rates	From team slides; no external check; basis of rates unknown	EST, ASM
Funnel rates: 40% / 62.5% / 40% / 25% (base)	Our assumptions. First three testable in the pilot; the last needs BeyondTech history	ASM
Pilot size: ~400 registrations	Our goal: 40% of ~1,000 interested	TARGET
IIT Bombay sector offers; IIT Delhi ~850 UG offers; IIT Kharagpur 1,800+	Secondary sources; no UG sector split or sector counts	SEC
Other campus counts (IIT Madras, Roorkee, Kanpur, BITS Pilani, IIIT Delhi)	Not publicly verified	UNK
Fee, margin, CAC, conversion history	Not available; not invented	UNK
Scorecard ratings, rewards, budgets, gates	Our estimates and proposals	EST, PROP

SEC = secondary source. Get from BeyondTech in week 0: eligible cohort; enrolments by source; unique students behind selections; consent to name firms; fee, discounts, delivery cost; conversion history.

APPENDIX B

DTU market data and checks (from team slides; not externally verified)

Tech branch	Count
CSE	442
Software Eng. (SE)	190
Maths & Computing	190
IT	127
IT (Cyber Security)	64
CSE (Data Sci.)	64
Total	**1,077**

Programme	Students	Share
UG 4-year	10,431	71.6%
PG 2-year	1,670	11.5%
PhD	1,381	9.5%
UG 3-year	1,079	7.4%
Total	**14,561**	100%

Other branch	Count
ECE	216
EE	316
VLSI Design	64
Mechanical	316
Mech. (Automotive)	80
Civil	158
Production & Industrial	80
Engg. Physics	121
Chemical	80
Biotechnology	80
Environmental	80
Total	**1,591**

Segment	Count × rate	Result
Tech	1,077 × 23–25%	248–269
Other	1,591 × 48–53%	764–843
Sum	2,668	1,011–1,112

Checks and open questions

- Sums match: 10,431 + 1,670 + 1,381 + 1,079 = 14,561; branch lists add to 1,077 and 1,591.
- 2,668 branch total vs 2,000–2,200 pool: counts may be seats, intake or enrolled; confirm.
- Pool used: 2,000–2,200 (planning figure ~2,100); earlier drafts used 1,900–2,200.
- 1,011–1,112 vs 900–1,100: we plan on ~1,000.
- Do not use 14,561 as the market.

APPENDIX C

Scorecard arithmetic and sensitivity (weights sum to 100%)

Campus	Role 25	Aud. 20	Comm. 20	Fit 10	Cal. 10	Feas. 15	Total
IIT Delhi	25.0	16.0	16.0	10.0	8.0	15.0	90.0
BITS Pilani	20.0	16.0	16.0	8.0	6.0	9.0	75.0
IIT Bombay	20.0	16.0	16.0	8.0	8.0	6.0	74.0
IIIT Delhi	15.0	8.0	16.0	8.0	8.0	15.0	70.0
IIT Kharagpur	20.0	20.0	12.0	6.0	6.0	6.0	70.0
IIT Madras	20.0	16.0	12.0	8.0	6.0	6.0	68.0
IIT Roorkee	15.0	12.0	12.0	6.0	6.0	12.0	63.0
IIT Kanpur	15.0	12.0	12.0	6.0	6.0	6.0	57.0

Sensitivity case	Top four
Base weights	IIT Delhi, BITS Pilani, IIT Bombay, IIIT Delhi
Role demand 40%	IIT Delhi, BITS Pilani, IIT Bombay, IIT Kharagpur
Launch cost 35%	IIT Delhi, IIIT Delhi, BITS Pilani, IIT Roorkee
Community −1	Same as base
Audience −1	Same as base
IIT Delhi role demand 5 → 3	Same as base; IIT Delhi scores 80

Ratings (1–5) are team estimates (EST). Tie at 70 broken by Feasibility points (IIIT Delhi 15, IIT Kharagpur 6). Sensitivity cases rescale the other weights proportionally; Community −1 and Audience −1 remove one rating point from every campus.

APPENDIX D

Calculation check (rounding shown)

Item	Calculation	Result
DTU budget	18,000 + 32,000 + 12,000 + 6,000; 2 × 10,000; 10% × 88,000	₹68,000; ₹20,000; ₹8,800 = ₹96,800
Authorised now; programme total	68,000 + 8,800; 96,800 + 1,00,000	₹76,800; ₹1,96,800
Release schedule	76,800 + 30,000 + 20,000 + 25,000 + 25,000 + 20,000	₹1,96,800
Pilot size	~1,000 × 40% (400 ÷ 1,100 and 400 ÷ 900)	400; 36–44% of interested
Base funnel	400 × 62.5% × 40% × 25%	250 > 100 > 25
Spend per stage	96,800 ÷ 400 / 250 / 100 / 25	₹242 / 387 / 968 / 3,872
Low case	300 × 50% × 30% × 20%; 96,800 ÷ 9	150 > 45 > 9; ₹10,756
High case	500 × 70% × 40% × 25%; 96,800 ÷ 35	350 > 140 > 35; ₹2,766
Share of market	25 ÷ 900–1,100; 25 ÷ 2,000–2,200	2.3–2.8%; 1.1–1.3%
Ambassador pool	100 × ₹250; 12 × ₹1,500	₹25,000 uncapped; cap limits payout to ₹18,000
Gate 1 base check	400 ÷ 4 events = 100; 100 × 62.5% × 40%	100 reg.; 62.5 attend; 25 calls

Rates are our assumptions (ASM). Spend each assumes the full ₹96,800 is spent and excludes founder and mentor time.

Funnel assumptions (low, base, high)

Stage (base is the plan)	Low	Base	High	Basis and how we test it
Registered, % of ~1,000 interested	30%	40%	50%	Free events via societies, batch groups, ambassadors. Test: event 1 count.
Attended, % of registered	50%	62.5%	70%	Reminders and a small pre-event task. Weakest assumption. Test: live log.
Counselling call, % of attended	30%	40%	40%	48-hour follow-up call with a mini mock. Test: calendar bookings.
Enrolled, % of counselled	20%	25%	25%	No basis. Replace with BeyondTech history.

APPENDIX F

Campus pilot gate math and external sources (secondary; not independently audited)

Campus	Days	Budget	Gate: registrations	Calls at 15%	₹ per call	vs DTU base ₹968
IIT Delhi	31–44	₹30,000	100	15	₹2,000	2.1×
IIIT Delhi	45–58	₹20,000	60	9	₹2,222	2.3×
BITS Pilani	59–72	₹25,000	60	9	₹2,778	2.9×
IIT Bombay	73–86	₹25,000	100	15	₹1,667	1.7×
Total		**₹1,00,000**				

Claim	Source (SEC)
IIT Delhi UG: ~850 unique offers, 2024-25	Careers360, citing a press release
IIT Bombay B.Tech 2024 offers by sector	Shiksha, labelled as an official report
IIT Kharagpur 1,800+ offers incl. 409 PPOs, 2024-25	PTI report (The Week)

Not publicly verified (UNK)

- Cohort sizes and non-tech offers for IIT Madras, Roorkee, Kanpur, BITS Pilani, IIIT Delhi
- Any partnership, student access, fee or conversion history
